

PROFESSIONAL SUMMARY

Analytical and performance-focused Mechanical Engineer with proven experience in manufacturing, quality control, and process optimization. Skilled in die casting operations, inspection methods, and data-based defect analysis. Proficient in CATIA V5, ANSYS CFD, and MS Excel with strong knowledge of thermodynamics and fluid mechanics. Adept at identifying root causes, improving production efficiency, and enhancing product reliability through structured engineering approaches.

KEY EXPERTISE

Casting & Manufacturing Processes Quality Control & Testing CATIA V5 Excel
Teamwork, Communication & Time Management powerpoint presentation canva HTML CSS Javascript
ANSYS CFD Project Coordination and Team Leadership

EDUCATION

MIT Academy of Engineering, Pune

2022 - 2026

B.Tech. - Mechanical Engineering | CGPA: 7.53 / 10

Sharadchandra Pawar Kanishtha Mahavidyalaya, Pune

2022

12th | 2020 | Percentage: 61.22 / 100

Shri Dnyaneshwar Vidyalaya Junior College, Alandi Devachi, Pune

2020

10th | 2019 | Percentage: 78.88 / 100

INTERNSHIPS

Endurance Technologies Private Limited | Automotive / Ancillaries / Automobile

10 Jun, 2025 - 02 Aug, 2025

Intern

Key Skills:

Casting Defect Identification & Analysis Process Audit & Quality Inspection Preventive Maintenance Awareness
Moulding and Degreasing Operations Spectrolab Testing for Chemical Composition Hardness Testing (BHN & HRC Levels)
Gravity Die Casting (GDC) Process Shot Blasting and Fettling Operations First Piece & Last Piece Parameter Inspection

Completed internship in the Gravity Die Casting (GDC) Quality Department at Endurance Technologies, gaining hands-on experience in process audits, first-piece and last-piece inspections, Spectrolab analysis, hardness testing, and parameter monitoring. Acquired practical knowledge of defect analysis, mold quality checks, and process control to ensure defect-free alloy wheel casting production.

PROJECTS

REGENERATIVE BRAKING SYSTEM PROTOTYPE

20 Jun, 2023 - 15 Nov, 2023

Mentor: Mr. Mahesh Joshi sir | Team Size: 4

Key Skills:

Energy Recovery Systems Mechanical Design Electrical Energy Conversion Prototyping and Testing
System Optimization Problem Solving

- 1) Developed a prototype system to recover energy during braking, enhancing vehicle energy efficiency.
- 2) Engineered and tested the system to effectively convert braking energy into electrical energy.
- 3) Demonstrated the potential for energy savings and sustainability in vehicle operations.

INVENTORY MANAGEMENT SYSTEM WEBSITE

25 Jan, 2023 - 10 Nov, 2023

Mentor: Dr. M. Giri | Team Size: 4

Key Skills: Full-stack Development Database Management Real-time Data Processing Inventory Management Systems

- 1) Designed and developed a website to manage inventory efficiently, enabling users to track stock levels, monitor orders, and manage suppliers.
- 2) Integrated features like real-time stock updates, advanced search functionality, and a user-friendly interface to enhance usability.

3) Utilized HTML, CSS, and JavaScript for the frontend, coupled with a backend database for robust data management and seamless operations.

ASSESSMENTS / CERTIFICATIONS

Claude 101 Certifications

Aggregate: 100 / 100
Claude 101

AI Fluency Framework & Foundations Certification

Aggregate: 100 / 100

SEMINARS / TRAININGS / WORKSHOPS

EduSkills TECH CAMP Institute Name: MIT Academy of Engineering, Pune

12 Sep, 2024 - 14 Sep, 2024

Key Skills:

- ANSYS Fluid Dynamics
- Computational Fluid Dynamics (CFD) Simulation
- Fluid Flow Analysis
- Engineering Simulation Tools

Participated in a three-day workshop on ANSYS Fluid Dynamics, focusing on computational fluid dynamics (CFD) and engineering simulation tools. Gained practical insights into fluid flow analysis and applied simulation techniques to real-world engineering problems.

PERSONAL INTERESTS / HOBBIES

- Animation video, Exploring new technologies, Listening to music, Creative writing
